

In case you feel symptoms of swine flu (type A H1N1) we recommend you to contact an International Clinic e.g. MEDEM International Clinic for medical treatment as in Russian hospitals very few speak English. You need to have your passport and medical insurance with you.

MEDEM International Clinic

191025, Russia,

Saint Petersburg, Marata str., 6

Tel.: + 7 (812) 336-33-33 (24 hours)

Fax: + 7 (812) 336-33-34

MEDEM International Clinic is ready to provide medical services for patients with fever and upper airways catarrhal symptoms as follows:

- Emergency doctor on-site visit for assessing the patient's state and providing the medical care on outpatient basis (prescription of specific antiviral drug (Oseltamivir (Tamiflu)) and diagnostics samples collection (blood sampling, sputum analysis, etc.)
- Should any indication for hospital treatment arise, adult patients will be transported to the Botkin Infection Hospital and children – to the Pediatric Municipal Hospital No5 in order to exclude any eventuality of type A H1N1 virus. The patients will be after that treated at the MEDEM International Clinic if the type A H1N1 virus is not confirmed, and if the type A H1N1 virus is confirmed, adults will be treated at the Botkin Infection Hospital and children – at the Pediatric Municipal Hospital No5 under the MEDEM International Clinic doctors control, as per the City Health Committee and Rosпотребнадзор decrees.
